

1118. Number of Days in a Month Premium

Easy Topics Companies Hint

Given a year `year` and a month `month`, return *the number of days of that month*.

Example 1:

Input: `year = 1992, month = 7`
Output: `31`

Example 2:

Input: `year = 2000, month = 2`
Output: `29`

Example 3:

Input: `year = 1900, month = 2`
Output: `28`

Constraints:

- `1583 <= year <= 2100`
- `1 <= month <= 12`

Hint 1

Does February have 28 days or 29 days?

Hint 2

Think of Leap years.
